In addition to the College Scorecard link, students may wish to also review data at the College Navigator Web site at <https://nces.ed.gov/collegenavigator>.

This program (2018) for the first time since having Title IV aid, has not passed standards established by the U.S. Department of Education. Our ratio was 1.2 : 1 due to changing to the evening VN part-time program and higher attrition than expected. Schools are required to have 1.5 : 1. We have re-added the day VN program back in addition to the evening part-time program to avoid this in the future. The Department based these standards on the amounts students borrow for enrollment in this program and their reported earnings. If in the future the program does not pass the standards, students who are then enrolled may not be able to use federal student grants or loans to pay for the program, and may have to find other ways, such as private loans, to pay for the program.

I acknowledge, I have read, reviewed, and understand this disclosure prior to enrolling into a VN program at the school.
