

# **Nurse Aide Computer Based Training for 60-hour classroom training**

HHSC has created a Computer Based Training (CBT) that nurse aide trainees can use to complete the 60-hour classroom training online. The CBT gives trainees the opportunity to complete the classroom portion of training anywhere they have access to it, at any time, and at their own pace. Once a trainee finishes the CBT, they must complete the 40-hour clinical portion of the training with an approved NATCEP to qualify to take the CNA exam. [Access a list of approved NATCEP programs.](#)

[Register for the NATCEP Computer-based Training Course.](#)

If a student has the HHSC CBT training completed they can sign up for our 40 hours of clinical.

We charge \$15.00 / hour x 40 hours = \$600.00. This includes student insurance, RN instructor, and the clinical facility experience, journal, and access to our canvas online to submit journals.

## **Upcoming Clinical Schedule:**

7/30/2024, 7/31, 8/1, 8/2, 8/3

10/28/24-11/1/2024

1/9/2025, 10, 13,14, and 1/15/2024
